

GREATER PART OF SMYRNA DESTROYED BY FIRES

Rescuers Expected to Break Into Argonaut Mine Sunday

HEROIC EFFORT TO ENTER MINE NEARS RESULT

Few Hold Out Belief That Any Men Will Be Found Alive To Relate Story

IMPRISONED THREE WEEKS

Shaft Caught Fire August 27 And Rescuers Have Labored Night and Day

JACKSON, Calif., Sept. 16.—Rescuers will break through the Argonaut mine, where forty-seven men have been imprisoned since Aug. 27, tomorrow before noon, according to a unanimous statement by the government and state mine officials.

Tonight officials will be able to forecast with a reasonable certainty the hour when the rescuers will break through into the Argonaut. On the 3600-foot level drills cleared eight feet of rock during the night, leaving fifty-two feet to go.

It is now predicted that 10:30 Sunday morning will see the first hole made into the 4200-foot level of the burning Argonaut mine by the crew working from the 3600-foot level in the adjoining Kennedy mine.

PRESIDENT WILL VETO SOLDIERS' BONUS BILL

WASHINGTON, Sept. 16.—President Harding has definitely decided to veto the soldiers' bonus bill and will send his message to the house Tuesday, according to close advisers. The bill was signed today by Speaker Gillette.

HEAVY FIRE LOSS

NEW ORLEANS, Sept. 16.—A loss estimated at \$7,500,000 resulted from a destructive fire on the water front.

TILDEN WINS FOR THIRD SUCCESSIVE TIME

PHILADELPHIA, Sept. 16.—Tilden won for the third time in three years in his match, surpassing any similar contest in the history of the game. Superior physical stamina and unbelievable court-covering ability eventually won in a battle lasting an hour and forty minutes of actual play before a gallery of 14,000 rooting spectators.

SISLER BACK IN GAME

ST. LOUIS, Sept. 16.—Sisler of the St. Louis Americans, who has been out of the lineup with an injured shoulder, will be back on first base in the latter part of today's contest with New York. Should Sisler hit, he will have tied the major league record.

FREEDOM OF DARDANELLES DESIRED BY ENGLAND

LONDON, Sept. 16.—The British government has adopted the attitude that an effective permanent freedom of the Dardanelles is a vital necessity, and for which it is prepared to make exertions. It is authoritatively stated.

AMERICAN ACE MARRIES WIFE OF HIS RIVAL

NEW YORK, Sept. 16.—Capt. Eddie Hickenbacker, American ace, was married at South Beach, Conn., to Mrs. Adelaide F. Durant, divorced wife of his former rival in auto racing. They sailed on the Majestic for a honeymoon trip to Europe.

SCHOONER UNIDENTIFIED

SAN FRANCISCO, Sept. 16.—The schooner ashore at Cypress Point, Monterey, in a thick fog is unidentified.

SCHOOL OF MINES TO OPEN NEXT MONDAY

P. Dean Bradley has been named head of the Tonopah School of Mines, which will be conducted for another year. The opening term will start Monday and it is hoped to enroll a number of miners. Decision to continue the mining school for another year was reached by B. H. Morrison, state director of vocational training, who spent a couple of days here conferring with the board of trustees of school district No. 39. The funds needed have already been appropriated by the state and federal governments and the county's share will be allotted.

EXTENSION IS BUSY MINE AT THIS PERIOD

Work of installing pumps now nearing completion and many men employed.

The Tonopah Extension Mining company is rushing installation of pumping equipment at the McKane shaft and conditions should become normal within a very short time. Mine development is going steadily forward and the tonnage at the big milling plant is being increased from week to week, with the result that the earning is being augmented.

When the water has been cleared from the 1830 level sinking will again be resumed and there promises to be no interruption in the work until the 2225 level has been reached.

Official report of operations for the week ending Friday, Sept. 15, follows:

McKane Shaft

1290 level—1203 west drift advanced 14 feet in Extension breach. 1203 raise advanced 19 feet in Extension breach. 1203 crosscut advanced 16 feet in trachyte.

Victor Shaft

1501 intermediate level—No. 3 west drift advanced 27 feet on 3 foot of ore. Stopping is in progress on Murray vein.

1630 level—1620 west drift advanced 21 feet on low-grade ore. Stopping on Murray vein.

1760 level—1719 crosscut advanced 12 feet in Extension breach. Stopping on Murray vein.

1804 intermediate level—Stopping is in progress on Murray vein. Development, 109 feet.

SHIPPERS PROTEST RAILWAY SEPARATION

SAN FRANCISCO, Sept. 16.—The shippers committee against dismemberment of the Southern Pacific-Central Pacific system, composed of growers and business men from various parts of the Pacific coast, will meet here Monday to formulate plans for presentation to the interstate commerce commission contending for re-union of the system and higher rates.

GRANT'S CANDIDACY MEETS WITH FAVOR

The political announcement of J. D. Grant for sheriff and assessor of Nye county as the regular democratic nominee is meeting with favor, and his friends believe he will be found in the lead of the contest when the votes are counted on Nov. 7. Mr. Grant needs no introduction to the people of Nye county by reason of his long residence and the further fact that he has been prominently identified with the political, business and mining life of this section of the state since 1905, as well as a taxpayer of Nye county since 1905.

He lived at Rhyolite for a time, later taking up his residence in Goldfield, where he served as undersheriff. Later he moved to Tonopah and has been a continuous resident of the town since 1910. He served four years as constable and chief of police of Tonopah, retiring two years ago, since which time he has devoted himself to his mining interests. Mr. Grant is well qualified for the position of sheriff and assessor, and if elected will not be found wanting in the discharge of his duties.

RAILROADS ARE MAKING DEALS OF SETTLEMENT

As Negotiations Progress Crafts Demand Dismissal of Men Recently Employed

INDIVIDUAL CONTRACTS MADE

Burlington Effects Scale That Proves Agreeable to Most Skilled Workers

CHICAGO, Sept. 16.—While several railroads are negotiating for separate agreements and others are preparing to meet representatives of their own employees, it was learned, the shopcrafters of the Chicago & Northwestern are demanding the dismissal of men hired to take the place of strikers, but this would not prevent the men from returning to work Monday, officials said. Several roads are expected to follow the lead of the Burlington, which reached an agreement with its own shopcraft men by which skilled mechanics are granted a wage rate ranging from 65 to 85 cents an hour in place of the labor board's flat 70 cents.

CLEVELAND, Sept. 16.—An agreement has been reached between the railroad trainmen and order of railway conductors with officials of the Pennsylvania over wages and working conditions. The new agreement affects all members of the conductors' order on the entire Pennsylvania system.

TRAVELING TEAM IS CREDIT OF COLLEGE

PULLMAN, Wash., Sept. 16.—Washington State college will have practically a "traveling" team in the Pacific coast and northwest conference football races this fall, as only one game, that against the University of Washington, will be played on the home grounds here. Two trips to California are on the schedule.

The first trip will be on Oct. 7 to Tacoma to meet the N. Y. army corps team. On the following Saturday Gonzaga university will be played at Spokane and on Friday, Oct. 20, University of Idaho will be met at Moscow in the first coast conference game. The Washington game at Pullman comes on the 28th. A long journey to Berkeley, Calif., then will be taken to meet the University of California Nov. 4. Oregon will be invaded for the next two games, the Cougars playing the University of Oregon at Eugene Nov. 11, and the Oregon Agricultural college at Portland Nov. 25. The last journey will be to Los Angeles to play the University of Southern California on Thanksgiving day, Nov. 30.

ADMIRAL LINER QUEEN AGROUND NEAR RUPERT

SEATTLE, Sept. 16.—The Admiral Liner Queen went aground in a fog fifty miles south of Prince Rupert, B. C., according to a radio. The Queen is ashore on a white reef and is expected to be floated this afternoon. There are 250 passengers. She is southbound from southeastern Alaska points with a capacity cargo. The Canadian steamer Venture and Admiral Rodman are reported standing by.

STRAW HAT RIOTS OCCUR IN NEW YORK STREETS

NEW YORK, Sept. 16.—Police and street cleaners were busy as a result of the annual straw hat riots. The appearance of a straw hat at any place in the city is a signal for hoodlums to destroy. One victim strayed into the upper west side, said a mob of a thousand was de-

WESTERN GIRLS WIN IN TENNIS DOUBLES

PHILADELPHIA, Sept. 16.—Helen Wills of Berkeley and Helen Hooker of New York won the girls' national doubles tennis title from Miss L. Goodman and Betsy Hillyer of Philadelphia.

NO CHANGE REPORT AT TONOPAH MIDWAY

There was no change to report at the Tonopah Midway mine during the past week, although operations have been going forward quite satisfactory. Exploratory work is being centered largely on the 1290 level and drifting is being performed to the south from the point whence the fault was passed. Occasional streaks of high-grade ore are encountered, while a mass of mixed ore and quartz has been uncovered frequently from which occasional shipments have been made, the product being consigned to the Belmont mill.

KELLER CHARGE IMPEACHMENT FALLING FLAT

Refuses to Give House Judiciary Committee Evidence in Support Claims

WASHINGTON, Sept. 16.—Representative Keller declined to give the house judiciary committee evidence in support of his impeachment charges against Attorney General Daugherty. The committee adjourned after an hour's session, at which it heard Keller present a general preliminary statement.

PREACHER-WOMAN ARE FOUND KILLED

NEW BRUNSWICK, N. J., Sept. 16.—The bodies of Rev. Edward W. Hall, Episcopal clergyman, and Mrs. James Mills of Brunswick, wife of the sexton and singer in his choir, were found under an apple tree on a farm near here.

NEW BRUNSWICK, N. J., Sept. 16.—The bodies of Rev. Edward W. Hall, Episcopal clergyman, and an unidentified woman were found under an apple tree. Both were shot to death.

CANDIDACY OF GEO. W. ALLEN MOST POPULAR

Well Equipped for Position of Justice of the Peace by Legal Training

Attention of Bonanza readers is called to the candidacy of George W. Allen, who aspires to the office of justice of the peace for Tonopah township as a non-partisan candidate. Mr. Allen qualified at the primary election by being given a flattering vote, and if elected to the office will bring with him a fund of knowledge of the law that is seldom encountered in these positions. By temperament, business judgment and learning Mr. Allen is well fitted for the position, and in view of the fact that he has devoted much of his time during the past two years to studying law in the offices of DeFon & Gibson, he is well equipped for the position to which he aspires.

Mr. Allen has long been identified with the business and mining life of Tonopah and southern Nevada. He has resided in this state for the last sixteen years and holds much mineral land by location, and never does he fail to perform the annual assessment work as required by law. When the present chief of police, O. H. Smith, was appointed he requested the American legion members of Tonopah to name an officer and Mr. Allen was selected, and he has since faithfully and conscientiously performed the duties incumbent without fear or favor. A vote for George W. Allen is an assurance that if he is elected to the office of justice of the peace that his rulings will be found impartial and in strict conformance with the statutes of this state.

BELMONT MAKES GREAT HEADWAY MINE AND MILL

Operations Being Prosecuted on Six Different Levels With Pleasing Results

HEAVY SHIPMENTS RECEIVED

Mills Are Operating Steadily on Splendid Grade Ore From Many Properties

"Large development continues to be carried forward at the Tonopah Belmont Development company holdings and the property is the scene of great activity in both a mining and a milling way. Operations are being prosecuted on six different levels of the mine workings and the usual tonnage of ore is being broken and sent to the company mill. Shipments of ore from outside properties to the milling plant have kept well up to the standard of past months and the earning is in keeping with that of the busy period of last year or more. The sweeps plant at Tonopah is handling a heavy tonnage of good grade ore and a substantial earning is resulting for the lessors as well as the treasury of the company.

The official report of operations for the seven-day period ending Thursday, Sept. 14, follows:

800 level—Intermediate east drift off of raise 850 is being advanced on two feet of ore. Intermediate southwest crosscut off of stope 8043 is being driven to connect with raise 865. Raise 865 is being driven on the south vein and shows a foot and a half of low-grade ore. Intermediate south crosscut has been started off of stope 857 in order to prospect the footwall of the Mizpah vein.

900 level—West drift 9035 is being advanced on a foot and a half of ore. East drift 9098 has been temporarily discontinued. Intermediate south crosscut off of stope 910 has been discontinued and drifting is in progress. Intermediate west drift has been started off of intermediate south crosscut off of stope 910 on a streak of quartz cut in the crosscut. Raise 107 has been advanced a short distance and work has been discontinued.

1090 level—Northeast crosscut 10981 is being driven to prospect for a segment of the Mizpah fault. Southwest crosscut 10925 is being driven to prospect for the 11008 vein on this level and is in trachyte.

1100 level—North crosscut 1109 is being driven in trachyte and is prospecting for a segment of the south vein. Southeast crosscut 11021 is being driven for connection. Intermediate southwest crosscut off of stope 80 is prospecting for the downward extension of ore developed on the 1090 level. Raise 131 has been stopped after passing through a foot of quartz and an intermediate crosscut will be started. Raise 135 has been started off stope 11008 in order to connect with the 1090 level.

1290 level—Intermediate northeast crosscut off of intermediate south crosscut off of east stope 7 is being driven in trachyte in the footwall of the Belmont vein.

1500 level—Southwest crosscut 1505 has been started in order to prospect the southwest portion of the property.

CANADIAN BANKERS GROW OPTIMISTIC

MONTREAL, Can., Sept. 16.—The rapid return of the Canadian dollar to a point near par is attributed by Canadian bankers chiefly to the fact that the Canadian business has set its house in order. Revival of business in the United States also helped in the return, they say.

"With bumper crops in sight, marked activity in industry generally, together with increased government revenues and the return of the dollar to par, business has taken on a confident tone," said one influential Dominion banker. "In the face of this combination of influences making for recovery, strikes and rumors of strikes will have small effect. The fact is apparent that the tide of prosperity has again set in and nothing can stop it."

SWEDEN FAVORABLE AMERICAN RADIOS

GOTHENBURG, Sweden, Sept. 16.—Sweden awarded the contract for equipping her new powerful radio station, to be erected forty miles south of Gothenburg, to the Radio Corporation of America, in spite of a lower bid from the German Telefunken company.

The reason was that the American company offered better terms of payment. The amount of the equipment contract is \$432,500, one-third cash and the balance from future receipts, without interest charges. The total cost of the station will be about \$1,300,000.

FORD TO CLOSE IN PROTEST OF FUEL CHARGES

Hundred Thousand Men to Be Thrown Out of Work for Indefinite Period

DETROIT, Sept. 16.—In protest against paying exorbitant coal prices Henry Ford tonight is to close his huge industry, rendering approximately a hundred thousand men idle for an indefinite period. The plants affected include five factories in the Detroit area and assembling stations throughout the country.

NATIONALS RETAKE TOWN OF BALLINA

LONDON, Sept. 16.—Irish nationalists have recaptured Ballina. The irregulars left town hurriedly.

DUBLIN, Sept. 16.—Major Gen. John McMahon, appointed chief of staff of the Free State army, succeeded Richard Mulcahy.

BRITISH OFFICIAL GIVES UP PENSION

LONDON, Sept. 16.—Lord Strathclyde has astonished the official world by voluntarily relinquishing the pension of £3,750 a year that was granted him seven years ago when he retired from the office of lord advocate for Scotland, where he was getting £5,000 a year.

He is 69 years old and declares his reason for giving up the pension is that he is unable, owing to weak health, to take part in the judicial work of the house of lords. That has only increased the surprise his action has occasioned. Such an exhibit of public spirit is rare indeed.

The British government makes generous provision for the future welfare of its best-paid officeholders when they join the ranks of those who have retired. The speaker of the house of commons has a salary of £5,000 a year; he may retire whenever he wants to and enjoy a life pension of £4,000 a year. The lord chancellor, who fills a role in the house of lords analogous to the speaker of the house of commons, receives a salary of £10,000 a year and retired pay of £5,000.

"DOC" MCGREGOR IS AFTER CONSTABLESHIP

In another column will be found the political announcement of W. L. "Doc" McGregor, who is an independent candidate for the office of constable for the Tonopah township. "Doc" McGregor is too well known to the people of Tonopah and southern Nevada to need any formal introduction, having resided in Nye county for the last twenty-one years, where he has constantly been a voter and taxpayer. For a number of years he was engaged in the livery and ore-hauling business at Manhattan, and where he also engaged in mining, both as an owner and leaser. He is progressive and aggressive and has large property interests in Tonopah, and was one of the heaviest losers as a result of the recent conflagration. His many friends are confident that he will prove a great vote getter at the general election, and if elected to the office they say he will prove an efficient officer and fulfill the duties incumbent upon him without fear or favor.

MANY SOLDIERS DECAPITATED IN TURKISH FRENZY

Bodies Placed in Sacks and Are Then Thrown Into Sea as Great Assault Is Made

WOMEN AND CHILDREN SUFFER

American Relief Officer Estimates Hundred and Twenty Thousand Victims

SMYRNA, Sept. 16.—Smyrna no longer exists only as a blackened masonry and a small vestige of the Turkish quarter remain. Death and 300,000 crazed population. Six long indescribable misery permeates the American relief workers are attempting the superhuman task of ministering to the dead and dying. No other country has yet come forward to the relief of the suffering.

LONDON, Sept. 16.—Dispatches say the greater part of Smyrna was destroyed by incendiary fires. Athens says the Turks decapitated a large number of Greek soldiers, put many in sacks and threw them into the sea. Women and children are being killed. One American relief officer estimates there are 120,000 victims, including wounded. Twenty-five thousand Christian women and girls were distributed among Turkish soldiers.

CONSTANTINOPLE, Sept. 16.—Asia Minor is continuing celebrating the Turkish triumph over the Greeks in a grand parade through several miles of jubilant Turks the sultan drove to the tomb of Mohammed, the conqueror, to pay homage. This is the first time since 1453 that a sultan has visited Mohammed's tomb. He rode in an American limousine. Constantinople is the first of Turkish flags.

LONDON, Sept. 16.—The British, in addressing Rumania, Jugoslavia and Greece, is asking their participation in an effective defense of the neutral zone and also inviting her to be represented by contingents in defense of those interests of which they have already made enormous sacrifices.

CONSTANTINOPLE, Sept. 16.—British authorities have appealed to Turkish officers to cease firing as the retreating Greeks are no longer combatants, but helpless refugees, declaring the Turkish action violated the dictates of humanity and international law. The Kemalists, however, ignored the plea and Greek vessels retired under heavy fire.

SPEED CLASSIC POSTPONED

KANSAS CITY, Mo., Sept. 16.—The auto speed classic was postponed by weather until tomorrow afternoon.
